👤 PROFESIONAL PROFILE

I am a committed and results-oriented individual with a strong passion for technology and problem-solving. I am motivated by continuous learning and teamwork to achieve common goals. I have a particular interest in data management and analysis, as well as in the application of machine learning techniques, especially in the field of neural networks.

🎓 EDUCATION

Computer Engineering

Universitat de les Illes Balears(UIB)
September 2022-Acutualidad

- I am currently in my fourth year of studies, specializing in Artificial Intelligence, with a focus on software development, algorithms, and data structures.

💬 IDIOMAS

English	B2
Spanish	Native
Catalan	Native

💼 PROFESSIONAL EXPERIENCE

Summer Employee

KFC MAGALUF
Summers 2022–2025

💡 PROJECTS

- **UNet – Image Segmentation**
  Implemented image segmentation using UNet to identify different shapes in images.
- **ETL – Football Match Data Pipeline**
  Developed an ETL process for football match data, using PostgreSQL to store and manage the data.
- **Monte Carlo – Reinforcement**
  Implemented reinforcement learning algorithms based on the Monte Carlo method.

💻 SKILLS

- C
- JAVA
- PYTHON
- MYSQL
- JS
- DOCKER
